Further Tests or Treatment Appointment Letter

Dear Sir/Madam,

Information

Thank you for choosing to see me in clinic. Further to your recent outpatient consultation, I am writing to confirm your appointment for tests, injections or surgery. This letter sets out some important information that I am required by law to provide to you in relation to your tests, injections or surgery. This is for your information only and is not a bill.

Reason for tests, injections or surgery

As discussed during our consultation, I recommend that you have either blood tests, X- rays, MRI scans, Ultrasound scans, CT scans, Arthrograms, Physiotherapy, injections or surgery. The purpose of this is to find the cause of your problem, or to treat the condition.

Consultant Fee Estimate

My estimated fee for this depends on the actual test or treatment.
I receive no fee for the vast majority of these tests, or physiotherapy.

However, if I perform an injection or surgery I will get a fee which is dependent on what I have previously agreed with your insurance company. **Normally you will NOT need to pay anything for this, and everything is covered by your insurance company. However, often patients have to pay an excess on their policy which their insurance doesn't cover.**

Please always doublecheck with your insurance to ensure they cover each test or treatment I advocate, before having it done.

However, my normal fee for a standard injection if you are paying yourself is £130. If the injection involves me using ultrasound or x-ray (to guide me into the correct place) my charge is £250.

My fee for surgery is dependent on what operation I am advocating. **Again, normally you will NOT need to pay anything for this, and everything is covered by your insurance company. However, often patients have to pay an excess on their policy which their insurance doesn't cover.**

Please always doublecheck with your insurance to ensure they cover each test or treatment I advocate, before having it done.

If you are paying yourself my approximate fee is –
£500 - £750 -Fracture Fixation (depending on the fracture and its complexity).
£150- £400 - Removal of Metalwork
£500 - Fasciotomy of Limb
£250 - Nerve Release
£100 - Drainage of joint
£900 - Shoulder/Elbow/ Knee Replacement
£100 - Revision Shoulder/Elbow/Knee Replacement
£750 - Repair/Reconstruction of Acromioclavicular joint
£600 - £750 – Arthroscopic Shoulder/Elbow/Knee/Ankle Stabilisation
£700 - Open Laterjet – Bony Shoulder Stabilisation
£750 - £800 – Revision Shoulder/Elbow/Knee/Ankle Stabilisation
£600 - Arthroscopic surgery for Joint Stiffness
£600 - Arthroscopic surgery for Shoulder/Elbow/Knee/Ankle
£750 - Arthroscopic Rotator Cuff Repair
£650 - Biceps fixation
£650 - Excision of Radial Head
£600 - Tibial Osteotomy
£700 - Patella Stabilisation
£700 - Arthroscopic Meniscal Repair
£750 - Knee Ligament Reconstruction
£900 - Revision Knee Ligament Reconstruction
£1000 - Multi-Ligament Reconstruction
£800 - Osteochondral Grafting - Fixation

Other consultants maybe also involved in your tests and/or treatment, but their fees are not included in the above estimate. For example, if you have an Ultrasound, X -ray, CT scan, MRI scan or arthrogram or an injection, the consultant radiologist who reports this or performs the injection will also charge a fee. Again, normally this is covered by your insurance, however it may not be and so you will need to double check.

For information on their fees, please contact the X-ray Department of the Hospital where the test is performed, or my secretary for some help (info@theolympiaclinic.com – 02036332288)

If you are having a surgical procedure, an anaesthetist will also be involved in your care. In addition to the above estimates, there will be an anaesthetist's fee that will be determined by the anaesthetist and charged to you, or your private medical insurer, separately.

For information on their fees, please contact the Administration department of the Hospital where the test is performed, or my secretary for some help (info@theolympiaclinic.com – 02036332288)

Services and Fees not included in the estimate

Please note that the above estimates do not include other treatment that may be required if any unforeseen complications arise during surgery. For example, costs associated with further treatment, additional care, or a longer than anticipated stay in the hospital.

Hospital Fees

Please note that above estimates do not include any fees that the hospital may charge. For information on Hospital or Clinic fees, please contact the hospital administration team, where you will be having surgery or tests, [or my secretary for some help (info@theolympiaclinic.com – 02036332288)].

Private Medical Insurance

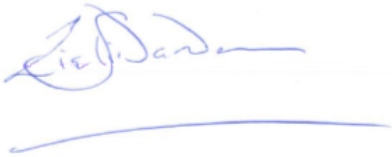

If you have private medical insurance, please contact your insurer before your test and/or treatment, to check whether this is covered by the terms of your policy

Please note you are responsible for any fees not covered by your insurer.

Quality Information

You can compare independent information about the quality of private treatment offered at the hospital and other private healthcare providers from the Private Healthcare Information Network (PHIN) website: www.phin.org.uk.

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'K.A. Ziali Sivardeen', is written above a horizontal blue line.
